Gideon Blaauw

Client-facing programs · CleantechHUB

Inspire. Act. Transform.

> Program lead work across acceleration, regional hub partnerships, and founder-facing investor readiness—always with public-safe materials and HITL approval before anything goes out.

ClimateLaunchpad & CTH Academy

- CleantechHUB is **National Organizer** for ClimateLaunchpad across **Colombia, Peru, El Salvador, Guatemala, and Costa Rica**.
- Runs cohort comms, trainer coordination, and bilingual founder-facing content for CLP and Academy tracks.
- Connects alumni to Nexus portfolio pages and mentor networks after competition cycles.

REIN Hubs (PVBLIC × CleantechHUB)

- Supports **REIN Hubs** (Resilience · Entrepreneurship · Innovation · Nature)—hub activation, founder programs, and partner storytelling across Latin America.
- Prepares donor- and partner-facing decks and hub asset maps; internal proposal decks sit behind SSO and are not shared in this pack.
- Uses public program context for external reviewers; detailed REIN proposal content stays confidential.

Public deck link pending (CTH decks on decks.cleantechhub.net require Google SSO).

Teclogi — Series A investor relations

- Client: **Teclogi** (logistics sector)—investor-relations and dataroom support for a **Series A** process.
- Coordinates structured data-room review workflows (Lane A dataroom scanner tooling); no investor names or deal terms in external materials.
- Desk protocol: Spanish client threads unless English is live; Gideon HITL before anything is sent or posted.

Teclogi is a named client in internal desk playbooks only; this one-pager describes scope at high level with no confidential terms.
