

REIN Hubs

For funders and partners

A Global Platform for Resilient, Inclusive, Nature-Based Innovation. Led by PVBLIC Foundation and CleantechHUB, backed by global family offices.

REIN currently operates five fully active hubs in Colombia, Perú, Costa Rica, Guatemala, and El Salvador, turning environmental challenges into investment-ready business opportunities for entrepreneurs across the bio-economy, renewable energy, circular economy, AI, data, and agriculture.

Three foundations

1. **Country & Regional Hubs**
   The local and regional infrastructure where ideas are developed, ventures are built, and high-potential solutions are accelerated.
2. **National Alignment**
   Integration with national development and resilience strategies to ensure ventures respond to country priorities and have pathways for adoption and scale.
3. **Capital Infrastructure**
   Blended finance pathways connecting investment-ready ventures with multilateral, public, and private capital partners.

Built on these three foundations, REIN moves innovators through a structured pathway from early-stage ideas to scalable, investment-ready ventures.

Four pathways

From early-stage ideas to investment-ready ventures

Ideation

Early-stage idea development for innovators and students exploring environmental solutions.

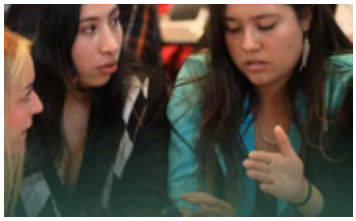

Incubation

National incubation programs within each university hub, building viable ventures.

Acceleration

Regional acceleration for high-potential ventures ready to scale across markets.

Investment Readiness

Mentorship, ESG/MRV support, and investor engagement to secure growth capital.
