Each row names the file that carries the figure. A conflict is an orange placeholder. This sheet does not pick a value.

TOPIC	PRINTED HERE	SOURCE FILES FOR EACH SIDE
Entrepreneurs supported	**[DECISION: 100+ or 200+ entrepreneurs]**	100+: REIN_AcademicCityGhana_Deck_v1 (inventory quote: "Supported across 5 countries since program inception"); Circularis v2 "100+"; DivInc v1 "100"; PDF page 10 via PENDIENTES.md item 1. 200+: live rein-academic-city-ghana page (inventory); academic-city-ghana-2026-04-23.html#impact. The program page also states "1,200+ Entrepreneurs supported" (https://www.pvblic.org/rein-hubs). That third figure does not select 100+ or 200+.
Partner universities	Five named university partners: Universidad Externado, Universidad del Pacífico, Universidad Rafael Landívar, Universidad LCI Veritas, and Universidad Tecnológica de El Salvador (UTEC).	https://www.pvblic.org/rein-hubs, checked 21 Oct 2026. Older files said 2+ or 5+. See DECISIONS.md.
Meaning of 200+	**[DECISION: what 200+ refers to]**	Inventory: international mentors / industry leaders (Ghana Drive deck); Circularis "cooperative partnerships"; entrepreneurs on the live page; "200+ students/educators/year" on that page and in academic-city-ghana-2026-04-23.html fit line "Mentorship at scale." The inventory says these 200+ figures may be crossed.
Stage durations	**[DECISION: HTML durations or PDF page 8 durations]**	HTML programs block in academic-city-ghana-2026-04-23.html. PDF page 8 in decks/rein-academic-city-ghana/SOURCES.md. Open item: PENDIENTES.md item 11. Both duration sets are listed in DECISIONS.md. Neither set is chosen here.

SOURCED, AND NOT IN THE STABLE SET

FIGURE	LIMIT ON USE	SOURCE FILE
1,000+ ventures, 5 countries	Inventory calls this the one-pager "REIN line (this one only)." It is not on the overview.	02_Central_America_Pvblic_Universities_OnePager (same Drive file as the funnel). Also the rein-funding header: https://decks.cleantechhub.net/rein-funding/ — inventory slot 6. That page is described as an internal funding table, not a comms page.
ClimateLaunchpad global pathway	Named beside the impact counts. No extra result figure is attached in the impact block.	academic-city-ghana-2026-04-23.html#impact

Dollar amounts, and three figures the Central America one-pager says not to use on that page, are left out of this sheet. See DECISIONS.md.
